

Ramp It Up!

You Will Need:

- A cereal box (or any other card would do if you fold it!)
- Scissors
- Something to stack your ramp on – Lego, blocks, books
- Toys to roll down your ramp – cars, balls, figurines, etc
- Measuring tape

Instructions:

Cut the sides from a cereal box to make your ramps (or fold other cardboard to make a similar shape). Rest one end on a pile of Lego) and you are ready to let your toy roll!

Why not...?

Try two ramps at different heights – which one sends your toy further?

Try ramps at the same height, but two different toys – which toy goes further? Why?

How many variations can you think of? Don't forget to measure!
